SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

The purpose of Amendment 0001 to HR0011-05-R-0001 is to incorporate the following changes:

1. Section L.10 Technical Support, is updated as follows:

DELETE: The government intends to use employees, subcontractors, and/or consultants of Quality Technology, Inc., Carter Technology Consulting, Inc., and McNeil Technologies, to assist in the administration of proposal submissions made under this RFP, and to support the government in its source selection duties and responsibilities.

INSERT: The government intends to use employees, subcontractors, and/or consultants of Quality Technology, Inc., Carter Technology Consulting, Inc., McNeil Technologies, and Gartner Consulting, to assist in the administration of proposal submission made under this RFP, and to support the government in its source selection duties and responsibilities.

2. Attachment No. 1 – Statement of Work (SOW), paragraph 1.0 Introduction, is updated as follows:

DELETE: “The Contractor is notified that there are situations under this Contract that would permit the provisions of this special contract requirement to apply. The contractor may during the period of performance of this contract and for one year after, be excluded from competition for, and award of, any contractual arrangements, other than the re-competition of this contract, as prime contractor, subcontractor, partner, or in any other capacity for the Defense Advanced Research Projects Agency without the express written approval of the Contracting Officer. Upon award, the Contractor’s employees shall be required to submit the Non-Disclosure Agreement included as Attachment J-14 of the basic contract. The intent of this provision is to prevent a situation in which a company who has unlimited access to DARPA information (acquisition, budget, project plans, etc.) is able to bid on future DARPA work where information regarding that work would provide an unfair competitive advantage. Offerors who may have a potential conflict of interest under this clause should request a review by the contracting officer. Requests for such reviews should be submitted to the contracting officer in writing and include: Name of company, current DARPA contract number, role of the contractor (prime or sub), nature of the work performed, and a description of the current level of access to DARPA facilities and information.”

3. Section L.11 Organizational Conflicts of Interest, is updated as follows:

INSERT: NOTICE TO ALL POTENTIAL OFFERORS: The Contractor recognizes that by virtue of FAR Subpart 9.5, there may be situations in which such contractor is excluded from other awards made by DARPA. DARPA reserves the right to negotiate an appropriate OCI Clause with an offeror potentially selected for award consideration, if an OCI is identified. The intent is to prevent a situation in which a company who has unlimited access to DARPA information (acquisition, budget, project plans, etc.) is able to bid on future DARPA work where information regarding that work would provide an unfair competitive advantage. Offerors should note that an awardee may always propose on any DARPA solicitation, unless specifically excluded from the competition. In order to conduct an efficient and streamlined competition, DARPA anticipates the following: In the event that an offeror is considered the apparent successful offeror and an existing or potential OCI issue is applicable, the Contracting Officer will make an OCI determination at that time, based on a review of an offerors OCI Mitigation Plan and request any supplemental data or information necessary to assist in making such determination. Offerors are advised that upon contract award, successful offerors employees shall be required to execute and submit the Non-Disclosure Agreement included as an attachment to this solicitation.
